## PROFESSIONAL EXPERIENCE

### Principal Learning Architect, Strategy Consultant & Instructional Designer
**Aug 2025 – Present**

**Kairos Worldwide / Kemp Advisory Group**

- Partner with C-suite and executive leadership to architect enterprise training strategy and technical learning solutions for multi-billion dollar utility transformations.
- Deliver the full training and change suite for an enterprise asset-management rollout: 30 Articulate Storyline microlearnings, 50 quick reference guides, 50 SOPs, facilitator guides, interactive games and assessments, training and UAT decks, and facilitated UAT and in-person and virtual training.
- Build microlearning libraries from recorded system sessions, re-voiced into action-based lessons with worked examples, practice, checks, and reflection for field crews, back-office finance, and supervisors.
- Embed generative AI prompting structures into role-based job-task analyses to translate engineering and system specifications into clear instructional objectives.
- Direct performance gap assessments and design scalable learning paths aligned with enterprise software rollouts and business metrics.
- Orchestrate a multi-department SAP Concur training curriculum for 500+ professionals and align learning across parallel rollouts of IBM Maximo, GEP SMART, and Microsoft Power Apps.
- Synthesize inputs from legal, supply chain, and operational SMEs into unified executive-level learning frameworks and support resources.

### Founder, AI Solutions Architect & Product Developer
**2026 – Present**

**Kemp Advisory Group, LLC — Tyler, TX**

- Designed and built GC Academy and Kempbell Academy, full-stack K–5 learning platforms with TEKS-aligned courses, printable workbooks, quiz and exam item banks, individualized learning paths, progress monitoring, and parent and teacher reports.
- Built Kempbell Teacher Studio, a standards-grounded lesson-planning tool, and a standards-grounded RAG tutor on public Texas standards (TypeScript serverless function, public repository).
- Developed browser games for the GC Arcade (Style Studio and Color Studio) with avatar and wardrobe systems, an in-game currency and shop, and membership-gated content.
- Engineered child-safe accounts and payments with Supabase, Stripe, and Netlify serverless functions: parent-approved device sign-in with picture PINs, card-verified parental consent for friend features, subscriptions, and billing.
- Designed, launched, and maintain websites for meshayla.com, kempadvisory.com, gisellechanel.com, kempbellacademy.com, and kempventures.com, plus pro bono client sites, using GitHub pull requests and Netlify deploy previews.
